#### KEEP ROOMS VENTILATED.

Mr. and Mrs. George Hartman of chances of health are 60 per cent lower summer.

> It is of vital importance that an upper opening be kept in every living room, kitchen and sleeping apartment for the escape of the foul air emanating from life, labor and decay. Rooms that are not provided with

an upper register or window ventilator can be perfectly ventilated by lowering the window a fraction of an inch. This imperceptible opening is a regular life insurance. If this precaution is heeded all win-

ter long, day and night, there will be a reduction in lung and throat diseases. In consumptive cases this law should be rigidly enforced.

#### THE TABLE.

Liver Dumpling Soup-Take a soup bone or a nice piece of boiling meat add stock, onions, celery, bay leaves carrots, just as you would for any soup. When well seasoned chop or put through a food chopper a pound of beef or calf liver, add one-half pound cracker crumbs, one onion, salt and pepper; work this together and make dumplings. After straining soup add dumplings and boil one more hour This will serve four people.

Pressed Meat-One pound fresh lean pork, two pounds round steak; add three pints hot water and one teaspoonful salt. Cook four hours. Chop meat fine, add some of the stock, season to taste and press in a deep dish. Baked Sliced Ham-Get a center cut

of ham about an inc' thick. Cover it with broken sugar, sprinkle with paprika, place in pan of water (do not cover) and bake slowly one hour. This gives a baked ham dinner for a small family.

Escaloped Corn-Butter a baking ish and in bottom of dish put a layer of cracker crumbs, a little salt, pepper and butter; then a layer of corn, salt, pepper and butter; then another layer of cracker crumbs, and so on until dish is nearly full, having the crumbs, with pepper, butter and salt or top layer.
